**The Agricultural Society's Meeting Largely Attended—Seed Grain.**

**The English Church Will Likely be Open in May—Personal and Other Matters.**

It must have proved encouraging to the directors of the agricultural society last Thursday to note the large attendance at the meeting and lively interest extended to the proceedings. The annual report read by the President was closely followed. The carefully prepared report of the society's painstaking secretary-treasurer, Mr. A. W. Sherwood, also received minute attention. Papers read by Mr. E. J. Brooks on hog raising, and gardening, by Mr. Jas. Harvey, showed each gentleman to be perfectly conversant with the respective subjects handled. The creamery question elicited intelligent discussion. It was stated that Lord Brassey had offered to build, and the government to conduct, the creamery, if our farmers within a fixed area provide milk from 200 cows. The society's funds will be augmented by the addition of many new members. The officers appointed for the current year are: President, Jas. Harvey; vice-presidents, Thos. Skinner, W. H. Stephens; secretary-treasurer, A. W. Sherwood. Lady directors: Mesdames Bell, Mackay and Dickson. Directors: W. Dickson, Major Bell, W. M. Douglas, R. Todd, A. Mackay, A. M. McLean, E. J. Brooks, W. Braithwaite, T. E. Jackson, W. S. Grant, J. Harkin, W. Kildard, P. Ferguson, C. H. Bonstedt. Auditors: G. Thompson and H. H. Campkin.

The old directorate met prior to the general meeting and resolutions were passed pledging the society's support to the coming Territorial Exhibition.

A request from the Commissioner of Dominion Lands, Winnipeg, that the directors should make out a list of parties entitled to the seed grain relief and to superintend the distribution of the same, was laid before the directors, and after discussion it was decided to hold another meeting of the board on Saturday, with this object in view.

On Saturday the board held a lengthy meeting and prepared the list asked for, which has been transmitted to the commissioner for approval.

The English church edifice will probably not be opened until May. The contractor having failed to adhere to the specifications the building is as yet on his hands.

T. Jones, night operator, C.P.R., has asked to be relieved and will take a vacation in the near future. A portion of his holidays will be spent in Minneapolis.

Rev. G. N. Dobie, the new English church incumbent and his family, will take up residence in the Brassey building at the end of April.

Rev. J. Macallister preached his farewell sermon to the congregation of the Presbyterian church on Sunday morning.

Mr. Brooks, J. Bonnycastle, W. Govin, F. Lamouth and J. Hunt within the past eleven days returned from the east.

The trustees of the Methodist congregation have purchased Dr. Kemp's brick residence for a parsonage.

Supt. McKay visited Winnipeg last week in connection with the seed grain and relief distribution.

Maj. Bell returned from Winnipeg on Monday, Mrs. Bell will follow during the week.

Mr. Jas. Harvey has been appointed noxious weed inspector for the municipality.

Surveyor Thompson, Qu'Appelle, was in town on Saturday.

## KNOWS ALL ABOUT IT!

**Our Edgeley Correspondent Protests Against Free Press Statements—He Overhears Things at the Club.**

Again will I ask our worthy editor to be allowed to protest against the one-sided, scurrilous and contemptible statements made by the Free Press. The Press has generally been, in former years, the only paper our farming community regarded as anything like reliable information for news of the doings of our country at large. It was supposed to be, and it did pose, as an independent paper; but what is it now? There are men to-day who take it who believe, because it is printed on paper, that the story must be true. I would ask them to compare with it the Nor-Westerner and weigh the balance of the two stories if they want the real state of affairs, and not to read and believe any one-sided story and allow themselves to be gulled and corrupted by letting their belief go too far.

There are a good many reports circulating regarding the possibility of Assiniboia returning three representatives to Ottawa, instead of two as formerly, in the next general election. This would be a wise and generous act of the present government towards our Nor-West farmers. Only think! It means three good Tories to represent us, who, headed by so brilliant a campaigner as Nicholas Flood Davin, will have a stronger standing than ever in looking after the needs and wants of our Assiniboian's.

The weather of late has been superbly fine and our Edgeley gophers have been making up for lost time, which king frost compels them to lose every season. If these little creatures only knew that Edgeley's greatest orator is on their track they would probably keep underground or commit a speedy suicide in the nearest well.

There is quite a lot of kicking over the amount of seed grain allotted to each individual. Farmers have only themselves to blame on account of the abuse and trouble given the government in their generosity of former years. Don't be like the dog and the shadow; neither build ye castles in the air.

Overheard at the club after a private cabinet meeting. Present, Sir Mackenzie Bowell, Sir Chas. Tupper, Foster and a few others:

**For Hon. Member**—So you're going to have another session, Mac?

**Sir M.P.**—Yes; great scheme on hand.

**Several Hon. members**—Why; what is it? Anything good?

**Sir M.P.**—It is a reasonable and justifiable plan, so simple I cannot express my wonder that it has not been thought of before.

**Hon. member**—Go on!

**Sir M.P.**—Well, everybody knows that we at present have a large majority in the house and could pass anything we want to, and everyone knows that any man that votes against this government cannot have a full possession of his senses.

**Several hon. members**—Just so! exactly! etc.

**Sir M.P.**—Well, as you know, there are lots of men intending to try and oust us in the next general election, so I thought it would be better to shape a plan for our safety. The plan is this: As no one man could possibly vote against the present government of Canada, and that there seems to be a number who are going to do so, it behoves this government to pass a law to reframe the voters' list, and in the framing every man hostile to this government shall be put on oath as to whether he honestly believes he is voting right, and those men that would take such an oath, we would deem it expedient to place them in the nearest lunatic asylum as dangerous men.

**HEART DISEASE RELIEVED IN 30 MINUTES.**—All cases of organic or sympathetic heart disease relieved in 30 minutes and quickly cured, by Dr. Agnew's Cure for the Heart. One dose convinces. Sold by C. E. Carthew.

not safe to be allowed to roam at large in this our fair Dominion, and as men who had lost all sense of mind.

**Hon. members**—Capital! Brilliant!

**An hon. member**—But—  
**Sir M.P.**—There are no buts; everything has been looked into.

**An Hon. member**—The enormous expense of building these asylums, what of that?

**Sir M.P.**—Their personal goods to be sold, their incomes to be applied to building; besides, we can borrow all we want at 3 per cent. and a good number of our supporters will turn in and help.

**Another Hon. member**—What about feeding them?

**Sir M.P.**—As they have seemed, according to their own accounts, to have had nothing to live on, they will probably be able to subsist as before on the wind.

**An Hon. member**—Their families?  
**Sir M.P.**—To the States; they have hankered for Yankee land, let them go.

**Another Hon. member**—Supposing they should come to their senses?

**Sir M.P.**—Their might be a few, but only a few; surely you know them as well as I do. Now, another hot Irish and we'll adjourn. It is well we are the party of to-day, but it will be better when we are the party for the future. Good-night!

### The Creamery.

To the Editor of The Progress:

**Sir**—Will you allow me through your columns to briefly state the facts in connection with the creamery, as placed before the Agricultural society last Saturday?

Eight months ago the society appointed a committee, with instructions. First to secure the establishment, if possible, of a Government Co-operative creamery, through Prof. Roberts; and failing in this, to secure a creamery on a cash basis for the coming summer. This, because a deal of dissatisfaction had been expressed against the system of all trade coupons with which the farmers had hitherto been paid for their cream by Mr. Caswell.

This committee submitted to the society at Saturday's meeting two schemes:

1. Mr. Caswell offered to collect cream and make butter for the farmers for 4: a pound, the Agricultural society to appoint a committee of five, who would market the butter, receive the cash and pay out the same to the farmers, less 4: a pound, Mr. Caswell guaranteeing to make a first-class article and to place the same f.o.b. for the total cost of 4: a pound, or

2. Should this not be agreeable, he would continue to run his creamery on the old lines, and might pay half cash.

Mr. Caswell expressed himself as being much more favorable to the first scheme—of supplying butter to a committee—as should the latter scheme be adopted he would have to strike the rate so low, on account of the present fluctuations in prices, that it would be very unlikely to give satisfaction to the patrons. There would be no such opening price as that paid last year.

Surely nobody can reasonably doubt but that it would be far more satisfactory to get cash for our cream every month. What else have the committee been working for for the last eight months?

This committee after a deal of correspondence, work, and loss of time, was calmly told by one member at Saturday's meeting, "that he didn't see that we could do much; probably we had better let the matter drop." By another, and one who supported the original motion appointing this committee, that "he didn't see but what we had better let Mr. Caswell go on as before." This after working all winter to secure cash instead of trade to the farmers this summer. Very

encouraging, sir; very progressive, and very enterprising!

Saturday's meeting was postponed until next Saturday, April 6, at 2 p.m., in order to secure a better representation of the dairy farmers of the district, when no doubt this matter will receive the attention it deserves, and which it did not get last Saturday. **DIRECTOR.**  
Qu'Appelle, April 3.

### To My Beloved.

To the Editor of The Progress.

**Sir**—I am full of undying anguish and woe, tears of bitterness and sorrow have been running down my cheeks and I feel all broke up.

Last week I saw some poetry in a letter of Bachelor Billy's which I foolishly copied out and sent to "my beloved." The result was disastrous to my hopes of future happiness, for it turned her affections into bitter hatred, and if ever I run across that fellow Bachelor Billy, his name will be Dennis, for I thirst for his gore, and he will have another "mad wriggle" to write about. Whether I shall ever resume the even tenor of my days is doubtful. At present I feel the most miserable mortal on the face of the earth; however, I am in the hopes of meeting out the punishment which Bachelor Billy so richly deserves. I have just written this trusting it may prove a timely warning to those who are in the habit of writing poetry to their sweethearts. **DOUGLAS DICK.**  
Qu'Appelle, March 29.

### THE FIRE FIEND

Telegraphs the chickens of Mr. Holford and Cooks Mr. Hay and Stables—Regina has a Little Blaze Which Costs \$25,000—6th & 7th.

One morning last week Mr. Holford, who resides two miles out of town, was horrified to find that a spark from the chimney on his house had ignited some loose straw in the vicinity of his stables, and before he could say Jack Robinson the whole thing was in a blaze. He succeeded, however, in extinguishing his houses; one, formerly a black, now presenting a burnt brown appearance. The stable also contained a large number of hens, harness, etc., which were destroyed, as well as a large quantity of hay stacked near the stables. His loss is about \$200.

**REGINA, March 31.**—Fire this evening destroyed the large block known as South's buildings, in which were situated the court house and law library, also the Dominion land offices. The most important documents, etc., were saved, being deposited in the fire-proof vault, still the loss was considerable and will entail months of work to replace, more especially in the land office. One of the most regrettable losses is the fine law library, valued at \$10,000. Many of the works cannot be replaced. The total loss is estimated at \$25,000. The fire is supposed to have been the work of an incendiary.

**CHATHAM, March 31.**—About 5 o'clock this morning fire broke out in Jordan's jewelry store, in the block on the corner of King and Sixth streets, and spread to J. W. Burris' dry goods store and other portions of the large building which, with the portion occupied by G. E. Young, grocer was completely gutted. Loss, \$100,000.

In the afternoon, about 4 o'clock, the large wooden building on Fifth street, containing five stores on the ground floor and occupied by a number of tenants in the upper stories, caught fire and was completely destroyed. The building was owned by M. Houston. Loss, \$10,000.

**CHICAGO, April 1.**—Shortly after 2 o'clock yesterday fire broke out on the fifth floor of the old Times building and in less than fifteen minutes the top floor was a mass of flames. After a hard fight the fire was subdued but the building was flooded with water. The loss will not fall short of \$40,000.

**LESTOWEL, March 31.**—Fire this morning badly damaged the following establishments: H. H. Smith, jeweller; R. Morre, hardware; Bennett, Bowyer and N. Climis, private quarters.

## Looks Threatening

**The Relations Between England and France Somewhat Strained.**

**The French Press Indulge in Hostile Comments on Sir Edward Grey's Remarks.**

**LONDON, March 28.**—In the Commons yesterday the relations between Great Britain and France in regard to African territory was the subject of an interesting debate. Sir Edward Grey, parliamentary secretary of foreign affairs, stated that the whole Nile country, from the lakes to the sea, was under British or Egyptian influence. France was well aware of this, and any encroachments of the latter would be construed by Great Britain as an unfriendly act. There is no reason, however, to apprehend any interference by France of Great Britain's claims. The British government has always striven to avoid giving France any pretext for trouble and has adopted conciliatory measures when conflicts of interest arose. This course would be continued, while at the same time upholding Britain's undoubted claims. Sir Edward's statements were applauded by the Conservatives and Unionists.

**PARIS, March 30.**—The Debats says, in commenting upon Sir Edward Grey's statement before the House of Commons Thursday evening: "These recriminations are unfounded; we do not admit that France's silence as to England's claims to the Upper Nile region meant consent. France was no party to England's treaty with Germany and Italy, in which these claims were admitted. We must admit to Sir Edward Grey's confounding British and Egyptian rights. The khedive, in the eyes of France, is the sole and legitimate chief under the Sultan's sovereignty. We do not know that we have an expedition on its way to the Upper Nile region, but we do know that France, under all circumstances, will recognize the Porte's and Egypt's rights to the Upper Nile, and nobody else."

The Paris says: "England is observing with a jaundiced eye France's actions in Madagascar, and is seeking to raise obstacles to French policy in other parts."

The Patrie says: "Sir Edward Grey's statement is calculated to strain the relations of France and England. We perceive in it Germany's influence. As soon as Germany raises her voice England begins to bray."

### Seed Grain.

The Municipal Council have resolved to supplement the government issue of seed grain, and have accordingly purchased two cars of seed oats. Farmers requiring seed can obtain it from the council subject to the following conditions: Each farmer to get ten bushels and not more than forty bushels, and each applicant must be recommended by the councillors nearest to whom he resides, and be prepared to make declaration provided by the council and furnish two sureties approved of by the committee.

### Poplar Plains Pointers.

**N. M. L. A.** commenced spring work last week. He has rustled a large pile of wood. He is quite a favorite with the Indians.

Poplar Plains school house is about to be plastered. The roll will soon be called a 9.

Ducks and geese are flying in all directions. Keep your eye on your tame ducks.

Four men lost their lives at a fire in Denver, Col.

A true bill has been brought against Chattelle, the self-confessed murderer of Jessie Keith.

### REPREHENSIBLE TACTICS.

The manner in which the Grit  
press endeavors to seize upon every  
little reported misunderstanding in  
the cabinet would be amusing, did  
we not consider the motive. The  
publishing, as facts, of all sorts of  
tales of disagreements between  
members of the cabinet, without  
being sufficiently authenticated, is  
a matter of course to their way of  
thinking, but to that of all honorable  
men mean and contemptible. It is  
a curious fact that the Grit party  
are always, at least outwardly,  
clamouring for purity of action,  
purity of elections, and purity of  
government, yet they use these  
methods to obtain such a desired  
end. Do they imagine that such a  
course is likely to encourage honor-  
able men to enter the field? If so,  
we give it up. Take, for instance,  
the numerous reports and announce-  
ments as to the why and the where-  
fore of the very much to be desired,  
on their part, resignation of Sir C.  
H. Tupper, as reported in the Free  
Press. How abridged they must be  
to learn that Sir Chas. H.  
Tupper is still the Dominion  
Minister of Justice and quite in  
accord with the other members of  
the Government. We are happy  
to think that in the Northwest at  
least such sensational reports are  
looked upon as mere idle vaporings,  
to be taken with the proverbial  
pinch of salt.

### SEED GRAIN.

The agricultural society has  
undertaken, on behalf of the govern-  
ment, the distribution of the seed  
grain, and there can be no doubt  
that they are the proper parties to  
do so. At the same time it will  
not be out of place to warn them  
against the attempts of unworthy  
parties to impose upon them. For  
instance, we have been informed,  
truly or untruly we know not, that  
there are several of the Germans,  
who have applied for seed, who  
intend leaving the country im-  
mediately on receipt of the grain,  
selling a portion of it and using the  
remainder for horse feed on their  
journey. That such parties should  
receive the seed grain would not  
only be a violation of the spirit  
in which the seed is given by the  
government, but it would also be a  
wrong to the deserving who, as it  
is, will not be able to obtain  
sufficient for their requirements.  
It is, therefore, to be hoped that the  
society will keep a sharp look out  
on these parties.

It is announced that during the  
Territorial Exhibition, Professor  
Robertson and his assistants will  
deliver lectures upon dairy farming,  
and Mr. Gilbert upon poultry  
raising. Added to this prizes will  
be offered for the best essays, not  
more than four foolscap page in  
length, upon "Irrigation," "Gopher  
destruction," "Dairy products and

cheese making," "Hog raising and  
bacon curing," and "How to make  
the farm pay," with opinions upon  
the necessity for proper following.  
These essays are to be in hand by  
the first of June and are to be  
printed and read between the  
various addresses connected with  
farm yard subjects. Five governors  
from the Western States have been  
invited to be the guests of His  
Honor the Lieut.-Governor, and  
this, with the presence of His Ex-  
cellency the Governor-General, will  
add greatly to the interest of the  
proceedings.

### Free Trade as it is in England.

In England birth is taxed, mar-  
riage is taxed, death is taxed.  
Commodities are taxed, manu-  
facturers are taxed, incomes are  
taxed. We are taxed for our butler,  
if we are prosperous enough to  
keep one. We are taxed for our  
footman, groom or gardener. The  
carrage we keep is taxed, the  
omnibus we take is taxed, the cab  
we hire is taxed, the railway train  
we travel by is taxed. The house  
dog is taxed, and so also is the  
heraldic device on our note paper.  
Everything we drink is taxed—  
beer, spirits, wine, tea, coffee—and  
even for water we drink there is  
the water rate. Light is taxed  
through the medium of the gas rate.  
The land we walk upon is taxed,  
the tobacco we smoke is taxed, the  
gold or silver jewelry we wear, the  
eau de cologne perfuming our  
handkerchief, the figs we eat on  
Palm Sunday, the Christmas plum-  
pudding, these are all taxed. Even  
our anti-bilious pills are not free.  
All these, and they are but a few  
of the taxes that exist, are mostly  
imperial taxes for the purpose of  
government; some of them, how-  
ever, are assigned to the county  
councils. There are also local  
rates, which are but local taxes for  
the poor. County council, police,  
voting lists, street lighting, paving,  
watering, etc., sewer, school board,  
and vestry. Household, lodgers,  
married and single men, women and  
children are all taxed in some form  
or other, for taxation is devised to  
reach everyone. The late Lord  
Sherbrooke (Robert. Low) when  
chancellor of the Exchequer cal-  
culated that one-ninth of our in-  
come is taken from us for imperial  
taxation; but the proportion is more  
now and is growing. Local taxation  
is not much less. Temple Bar.

### New Patents.

The following list of United  
States patents, granted to Canadian  
inventors March 12th and 19th,  
1895, is reported for this paper by  
James Sangster, Patent Attorney,

Eclipse Office Furniture Co., Ltd.,  
Ottawa, letter and bill file.

### GLACIER BAY IN WINTER.

A Novel and Interesting Excursion in a  
Far Northern Latitude.

Doing the tourist act in the mid  
winter season of Alaska is novel.  
On the evening of Jan. 5 the voyage  
was begun, and the next morning  
daylight disclosed the steamer an-  
chored off Sillmore island in Glacier  
bay, the air biting, the atmosphere  
clear and the sun peeping over the  
hills to the eastward. After a hearty  
breakfast the anchor was weighed.  
Steaming against an icy cold wind  
from the glistening pinnacles of the  
glaciers, the vessel's bridge and  
decks were soon frosty. Willough-  
by's Marble Drake and Stargess is-  
lands held their positions against  
the wind as the steamer shipped by.

To the left Pacific inlet presented  
its range of mountains, snow capped  
and rugged, and at their base Pacific  
glacier nestled, a heap of tumbled  
ice. At the head of the bay Muir  
glacier reared its plateau of ice,  
clinging to the sides of the Fair-  
weather range as if determined not  
to slide into the encroaching bay.  
The scene was wild, and nature's  
process of disintegration seemed  
frozen into a dense rigidity, and the  
works of her art appeared arrested  
by the frozen chill of tons upon tons  
of ice.

Captain Carroll headed for the  
wall of ice, passing Professor John  
Muir's cabin on the right until a  
calm was entered beneath the be-  
lating crags of frozen architecture.  
Coming up to the wall of ice, the  
steamer swerved and steamed up to  
within a stone's throw of the glacier  
along its entire frontage. At times  
the vessel was within 70 feet of its  
wall, and the ripples from the steam-  
er gurgled into the caverns with a  
warning note. As one crag began  
cracking the steamer was headed  
farther out and then returned to her  
former course. It is not often that  
one has the opportunity to ride un-  
der a wall of ice for a mile and wit-  
ness the ice hold together until the  
passage is safely made. Captain Car-  
roll admitted when at a safe distance  
that it was the first time he had  
over approached the glacier so close-  
ly. The walls were fluted with pin-  
nacles of ice rising in places from  
150 to 200 feet from the water, and  
the frosted surface contrasted su-  
perbly with the sea green and heav-  
enly blue tints of the fractured ice.  
As far as the eye could discover this  
frozen river extended back into the  
wild recesses of the saw toothed  
Fairweather range.

Opposite the cabin the anchor was  
dropped, and the party of nine went  
ashore. Near the glacier large blocks  
of ice had collected on the beach,  
and their transparency was lit up by  
the sun's rays, and their lurid crys-  
tals were ornamented by the colors  
of the rainbow. Small pieces, like  
scintillating diamonds, gloved from  
the sandy beach, and frozen pools of  
water lay enconced in the miniature  
caverns of the icebergs. While on  
shore a huge slide of ice dropped  
into the bay, and from its crested  
foam large waves dashed upon the  
shore with the roar of ocean billows.  
All had to beat a hasty retreat above  
high tide mark.

In steaming down the bay en route  
for Sitka Muir glacier reached into  
the mountains to the ridge of the  
White mountains bordering Lynn  
creek as far as the eye could reach,  
and then turning this field of ice  
joined Pacific glacier 30 miles away  
and thence up the steep sides of the  
Fairweather range fully 60 miles  
from the bay. This field of ice, in a  
succession of glaciers, extends from  
Glacier bay to Copper river, about  
400 miles up the coast, and the man  
with a flying machine could see suf-  
ficient ice on this route to keep him  
cool for the rest of his summer days.  
The base of Muir glacier is estimated  
to be two miles long, but the plateau  
broadens out with altitude until its  
area becomes immense.

The wind blew the snow from the  
peaks of Crillon, Fairweather and La  
Perouse, which gave one the impres-  
sion that these mountains were emit-  
ting steam and smoke, but fire and  
lava have no chance there, as they  
would be frozen to a solid in this re-  
gion of perpetual snow and ice.

The following Wednesday morn-  
ing the party was once more in  
Juneau, having made the first win-  
ter excursion to Glacier bay.—Alas-  
ka News.

### Descriptive.

"I do detest these girls who think  
they know how to be sarcastic," said  
Georgie.

"Which one is it this time?" asked  
Willie.

"Grace Brown Jones. I sent her  
a picture of myself in my football  
rig, and what do you think she said  
of it?"

"Give it up. What's the answer?"

"She said it looked like a sausage  
garnished with a chrysanthemum."

### A Dream.

"Ef I had the money," remarked  
Mr. Weary Watkins, "ju know what  
I'd do? I'd hire me a private car  
with real feather beds on the trucks  
and travel about in one blessed  
dream of happiness the year round."

## Local and General

—Mr. McLean, Maple Creek, shipped a car load of young cattle west last week.

—F. H. Lyons, Winnipeg, representing the New York Life, is a guest at the Leland.

—The first part of another story, by Mr. Thomas S. Jerrold, will appear in a near issue of The Progress.

—The farmers are complaining of the number of wolves around this spring. What are our local hunters about?

—The Rev. Mr. Macallister preached his farewell sermon in the Presbyterian church last Sunday night to a large audience.

—The municipal council have resolved to import two carloads of seed oats for distribution on conditions that appear elsewhere.

—Mr. J. A. McDonald, Fort Qu'Appelle, arrived from the east on Saturday with a load of young thoroughbred Polled Angus bulls.

—In consequence of the fire at the Court House, Regina, the meeting of the Supreme Court, was postponed from Tuesday to Wednesday.

—Mr. E. W. Warner, station agent, left on Friday night for New York, having received news of the serious illness of his father in New York State.

—We are requested to state that all the mortgages, lien notes, etc., in the custody of Mr. Watson, clerk of the Court, have been saved from the late fire at the Court House, Regina.

—Among the visitors in town attending the Supreme Court are Messrs. Justice Richardson, J. C. Pope, John Rodgers, T. C. Johnston, Second, R. Rimmer, Sheriff Benson, J. Howson, Regina; A. McDonald, Fort Qu'Appelle.

—If the party who wrote an essay some time last summer on "How to make an agricultural society a success," will send his name and address to Mr. Jas. Balfour, sec. agricultural society, Regina, he will hear of something to his advantage.

—A case of assault, brought by G. Ambler against C. Booth, was tried on Saturday before Messrs. J. Doolittle and J. H. Fraser, J.P.s. It was a trivial case arising out of the impounding of a bull calf, and should never have been brought into court. Judgment was given against the defendant.

The sporting season has commenced. An exciting horse race came off on Monday afternoon, between two horses owned by Mr. A. D. Dickson and Mr. J. V. Henderson respectively, for a very substantial stake, distance about a quarter of a mile. The betting was even and considerable money changed hands. The lawyer got there, as they always do.

—Waghorn's Guide for April supplies us with the new post offices opened to date, municipal and stage changes, the latest time cards by rail, stage, ocean and lake, including ocean steamship sailings, fares, accommodations, etc., new county court sittings, map of the Dominion electoral divisions, license inspectors and districts, both in Manitoba and the Northwest, and revised general business tables to date. The information given in the Guide is well chosen to afford all the necessary information that may be of daily use to business men and travellers without loading them with statistical baggage of remote use. A word of praise is specially due for the very clear table showing the through time cards of the chief railway through the States to New York and eastern points. The plan adopted enables one to map out one's routes and connections with perfect ease. The secret societies' tables embrace much useful information.

## South Qu'Appelle Agricultural Society.

Minutes of a meeting of the South Qu'Appelle Agricultural Society, held in the Council Chamber, on Saturday, March 30th.

Present: President and vice-President, and Messrs. Starr, Weal, Rosen, Whelan, Smith, Tait, Howden, Matheson, Henley, Fessant, Pinder, Matthews, Bailey, Atkinson, Bell and Boyce.

Letter read from Lieut. Governor re exhibition and ordered filed.

Report of Freight Rates committee adjourned as committee had not completed their work.

Report of Agricultural Grounds committee adjourned as committee had not completed their work.

Report of Mill Committee also adjourned.

Mr. Henley reports re creamery, and gives some suggestions as to Mr. Caswell manufacturing butter for the farmers at 40 per pound and wished a committee of farmers to be appointed.

On motion the creamery matter was laid over till Saturday the 6th inst., at 2 o'clock.

Henley—Pinder—That the directors furnish a list of the number of cows that will supply the creamery this season. Carried.

Henley—Bell—That the secretary write to H. H. Smith and request that the oats purchased be sent in bulk. Carried.

Bunn—Bailey—That the bill of lumber furnished by Mr. MacCall for stock pens, which was short, be paid, also all other charges. Carried.

A report from Mr. Henley re contagious diseases was read.

The motion that no one shall receive more than 150 bushels of seed grain was lost on a division, and the amendment limiting the same to 100 bushels carried.

A motion to communicate with H. H. Smith and have him furnish oats instead of barley was carried.

A motion that the directors be appointed to distribute the seed grain proportionately on the cut list basis, being lost, Messrs. Bulyea, Spelling, Henley, Bell and the president were, in amendment, appointed a committee to distribute the seed grain.

The meeting adjourned, to meet next Saturday at 2 o'clock.

## Ellisboro' Stehings.

After a long, cold winter we are having a good spring. We expect to start seeding next week. There will be a large acreage in around here, and I think more summer fallow than ever before.

I am sorry to say that the Commee farm are giving up and are selling off everything. It will be a loss to this part of the district.

The Presbyterians held a very successful social and concert a little time ago. There is some talk of Mr. Campbell leaving soon. The people here will be very sorry to lose him.

There is some talk of building an English church here this summer, but I am afraid times are too hard.

## THE MARKETS.

Wheat—Wheat has been fairly steady this week and prices were maintained a little better than last week. The most important factor to influence the markets has been the dry weather in the winter wheat states, where the crop is said by some authorities to have already received considerable damage. In the western spring wheat states seeding was progressing under unfavorable conditions also on account of drought. In Minnesota and the Dakotas it is said the seed was being sown in a bed of dust, so dry is the ground. The visible supply this week showed a decrease of 1,100,000.

Wheat locally—The local situation is much the same as last week. There is such a trifling amount of business doing that there is really nothing to change the market. Prices in this market are nominally about the same. Dealers are offering about 53c for cars on track at Manitoba country prices, equal to about 65c c.i.f. Fort William.

Flour—There is no change in the local market. Reports from the east say the markets are very firm and better prices have been obtained for some grades. Local sales by millers are made at \$1.85 per cask, and \$1.65 per bushel, delivered to city dealers, with a discount of 5c per sack for cash.

Butter—Stocks of held dairy are now being gathered up and shipped to Eastern Canada markets, to be sold for whatever it will bring. This means that they will sell there from 5 to 8c per pound. In the Winnipeg market held dairy is practically unsalable. There is a little sale for rolls and prints, which range from 8 to 14c per pound as to quality.

Cheese—Dealers are selling at 11c per lb. Eggs—Prices have been easy this week. The usual price which has been obtained by producers dealers has been 10c per dozen, but in special cases 9c and even 8c was accepted for fresh.

Lard—We quote pure, \$1.60 for 25 pound pails and \$1.50 for 50 pound pails; compound at \$1.65 per 25 pound pail; compound in 5 and 5 pound tins, 56c per case of 50 pounds. Pure lard in 5, 10 and 15 pound tins, quoted at \$5.50 per case of 60 pounds, tierces 85c lb.

Poultry—Held cold storage stock is falling at about the following prices: Chickens 8c, turkeys 10c, geese 10c, ducks 8c. About 1 to 2c per pound higher would be paid for nice fresh birds.

Hog—Loose hogs are selling on the street market at about \$3.50 to \$4 per ton, baled hay, \$1 to \$5 per ton on track, but sells at \$1 generally. Better prices are expected.

Live stock—There appears to be quite a boom in prices of both cattle and hogs in Eastern Canada markets. In the local market prices are just about the same. Butchers' cattle this week have cost about 30c off cars here. Sheep nominal at about 40c for future delivery. Hogs are wanted at 40c for good bacon hogs.—Winnipeg Commercial.

## OUR LOCAL MARKET.

Wheat, 50 to 52c; little offering. Oats, wholesale 35c, retail 40c per bushel. Bran, 80c per 100 lbs., 81c per ton. Flour—Hannoverian, \$2; Strong Bakers, \$1.65 to \$1.85 per sack of 49 lbs. Best per side, 44c; points, 10c; Pork, 54c per 100 lbs.; 8 to 10c per lb. according to choice. Mutton, 10 to 15c per lb.; per carcass, 10c. White fish, 7c for quantities; 8c per lb. Potatoes, 80c per bushel. Cabbage, 15c per lb. Onions 1 box, for 25c. Hay, 30 to 37 per ton. Butter, 12 1/2 to 15c per lb. Cheese, 17c per lb. Eggs 12 1/2c per doz.

## Minerals In Food.

Minerals in our food form an important ingredient as regards our nutrition. They seem to assist the digestion of our foods and are needed to complete the composition of many fluids of the body. Thus the salt in tears is poetic and proverbial both, and salt is also necessary for the perfection of the gastric juice of the stomach. The phosphate of lime (in which calcium, by the way, is rich) is needed for building bones, and there is not a fluid of the body, from the blood to the saliva, for which certain minerals are not necessary. Too much mineral matter, taken, for example, in overhard water, is injurious; therefore all hard water should be softened before use. Such water produces constipation, dyspepsia and is apt to cause kidney troubles as well.—New York Dispatch.

## Herdng.

Notice is hereby given to the residents of the town of Qu'Appelle that Mr. Jas. Moore is now here, and is ready to fulfil all obligations binding upon him by arrangements made with him in the fall of the year for the herding of the town cattle this season. Therefore, all persons desirous of having their cattle herded by him may see him at any time from this date. Reasonable charges made.—Advt.

## The Offending Hyphen.

"No," said Mr. Brown. "No, I have no patience with the custom of putting a hyphen in a name, as some women insist upon doing when they marry."

"Why not? I think it is just the proper thing to do."

"As I said," replied Mr. Brown, "I have no patience with it. You know I married the leading woman's rights woman of our section, Miss Lucretia Morgan Minns-Brown."

"Yes," said Mr. Brown viciously, "her cards now read 'Mrs. Lucretia Morgan Minns-Brown,' and she believes it ought to be that way."—Detroit Free Press.

A fire in Milwaukee last week destroyed a million dollars' worth of property.

An effort will be made at the next session of congress to establish a navy on the lakes.
